

ELM APPLICANT TRACKING

ELM is proud to introduce our fully customizable Applicant Tracking System (ATS), designed to streamline and simplify your entire hiring process. From posting open positions across multiple job boards to guiding candidates through your personalized hiring workflow, scheduling interviews, and generating official offer letters — this tool does it all.

To best support a range of business needs, the ATS will be available at three service levels, allowing you to choose the option that aligns with your company's hiring goals.

For more information, please contact Devery or Amanda at (251) 470-0700 or via email devery@elminfo.com or amanda@elminfo.com
